Ernest J. Wesolowski  
1416 Pasadena Avenue  
Omaha 7, Nebraska

Dear Ernest:

Thank you for waiting for my letter. I have been quite tied up with a few engineering problems, and did not get around to replying to the DX reports until the last few days.

I am enclosing a list of the other QSL's I have sent. Two of the club members sent tapes which I found very helpful in evaluating our signal. I was surprised to get a report all the way from New York. He had only one station ID to go on and apparently did not hear the march music or any of the other material. ~~However~~ However, he logged the station break at the exact time that it was given. Even if he just imagined that he heard a KHAS break, it would be unusual for him to have noted it at the exact time we gave a break, unless he actually heard our ID. I sent him a letter to verify his report, on the ~~strength~~ strength of this one observation.

This letter will also serve to confirm your ~~own~~ report, which accurately stated what we transmitted.

Sincerely,  
*Robert Senne*
