Mr. E. J. Wesolowski  
1416 Pasadena Ave.  
Omaha 7, Nebraska

Dear Mr. Wesolowski:

This letter will serve as a confirmation on your reception report No. 60-72 recieved in my office today. Your report is accurate in the times the announcements were given. The reason for the tone being higher than 1000 cycles, is that it is a disc recording cut at 33 1/3 rpm-1000 cycles, but in playing it back the Announcer used the 78 rpm speed.

Thank you for <sup>your</sup> interest and for sending me the report.

Sincerely:

*Elmer G. Nelson*
