Dear Mr. Wesolowski:

First of all, my apologies for not getting this to you sooner. Not too long after we did this I ended in the hospital and I took all the letters home and answered them. Then put the letters in the den desk and hadn't noticed they were there till yesterday. So I'm hoping that they are still of value to you and am sending them to you. I thank you for your interest in this project.

Sincerely,
