Dear Ernest:

This will serve to verify your reception of our station on Tuesday, February 19, 1963 from 12:18 AM to 12:26 AM Mountain Standard Time On 1350 KCS.

This is our regular time for Frequency Measurement Tests.

I have only been with ~~this~~ station for the past three months so was not aware that they had any policy about answering DX reports. I have always tried to do so.

I thank you for your fine report and for the dime for the coffee.

Sincerely,

Eugene Fennimore
Chief Engineer
