Dear Mr. Wesolowski:

This is to confirm your reception report of KDEF dated June 20, 1973. KDEF operates with 5000 watts non-directional day, 500 watts directional night, and 500 watts non-directional pre-sunrise. Our effective field (unattenuated) at one mile in your direction at night is approximately 55 MV/M corresponding to approximately 87 watts. Needless to say, we heavily protect KSAL, Salina, Kansas.

Thank you for the thoroughness and accuracy of your report.

Sincerely,

A handwritten signature in red ink that reads 'Mike Langner'. The signature is written in a cursive, flowing style.
