Mr. Ernest J. Wesolowski  
1416 Pasadena Ave.  
Omaha, Nev. 68107

Dear Mr. Wesolowski:

Thank you for your letter of December 6th. I am sorry for being so tardy in answering. You certainly did catch us and your report follows our log exactly from 1:01 a.m. to 1:03 a.m. and this is to verify that you did hear us the night of December 6th.

It is the policy of our managing staff to stay with the Monday a.m. maintenance program, despite your suggestion: How you even heard us at all is amazing, since we are not supposed to broadcast further East than 25 miles from Reno, which means that going North, South, and West we have a whale of a lot of power. Sorry we can't oblige in the matter of maintenance time.

Cordially,

Euell Labhard  
Program Director
