Mr. Ernest J. Wesolowski  
1416 Pasadena Avenue  
Omaha, Nebraska 68107

Dear Mr. Wesolowski:

This letter will serve to confirm your reception of Radio Station WAQI between 5:44 and 5:49 am Eastern Daylight Time on Monday, September 13, 1965.

WAQI operates with a power of 1,000 watts on a frequency of 1600 kHz with a directional pattern from two tower array. The signal is basically oriented from east and west.

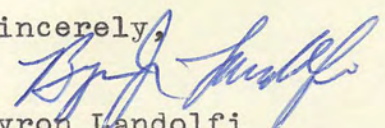

We began operation in 1964 and serve the northeastern Ohio area between Erie, Pa. and Cleveland, Ohio.

We are very happy that you were able to receive our signals at our sign-on and to learn via your friend Marv Robbins that you had snagged our signals.

Our programming format is middle-of-the-road, and our operating hours are sunrise to sunset.

If you would happen to catch our signals again, we hope you will again let us hear from you.

Sincerely,

  
Byron Landolfi
