General Manager

March 27, 1963

Mr. Ernest J. Wesalowski
1416 Pasadena Avenue
Omaha 7, Nebraska

Dear Sir:

This is a verification of your Reception Report of
March 18, 1963.

We are a non-directional station daytime, directional
at night, with a four tower array. The transmitter
is located approximately four and a half miles south
of Lima.

I have never sent back a verification of a report on
the original report, it must have been another station.

We appreciate your report and wish all who send in
reports for verification would follow your example and
give us more detailed information.

Thank you very much.

Sincerely,

W. E. Harrison

W. E. Harrison,
Chief Engineer
