

This letter confirms reception of WOIO Radio in accordance with your report dated Thursday, April 11, 1974 time 6:44-7:00. A check of our program log verifies that the information you logged is accurate.

WOIO Radio operates on clear channel 1060 Kilohertz employing a Collins 21E transmitter with an output of 5,000 watts. This is driven into a dual antenna directional array, daytime only. Our major lobe of radiation is in the direction of 232 degrees true from Canton.

We appreciate your interest in our station, and hope that you will be able to log our signals in the future.

Sincerely yours,  
Edgar L. Thomas  
Assistant Chief Engineer  
WOIO Radio\*\*Canton
