Ernest J. Wesolowski  
1416 Pasadena Avenue  
Omaha, Nebraska 68107

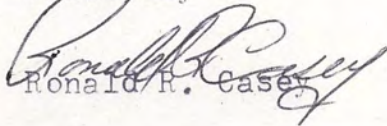

Dear Mr. Wesolowski:

I am pleased to send this letter of verification of your reception of KVLH on October 25, 1976.

KVLH has filed an application for construction permit to increase power to 1 kilowatt with a 3 tower directional array. Although coverage toward you will not be enhanced by a great deal, it would be of interest to know the difference after the increase. Although a specific date cannot be set at this time, construction should be complete by spring 1977.

I am enclosing a coverage map and rate card for KVLH.

Sincerely

  
Ronald R. Casey
