Dear Sir:

I was very glad to get your letter concerning our equipment test on April 8th. All of the information is correct in your report. We have received many letters from fellow DXers. We received Mr. Dabelstein's letter today. I'm glad to hear that there wasn't much interference.

Please consider this a VER IE on your reception report.

WE hope to hear from you again soon. I'LL send a small coverage map along with this verification.

Thanks Again
