(412) 627-5555

Ernest J. Wesolowski
1416 Pasadena Avenue
Omaha, Nebraska 68107

Dear Ernest,

All right, all right, quit shouting. I hate those capital letters from letter writers who want something done. We are in receipt of your letter, notifying us of your reception of our AM signal on March 24th, 1980. Our AM frequency is 1580 khz, and our FM is 103.1 mhz, with 3000 watts of power.

What you heard did sound like our AM sign on cart. I don't know what happened to your other letter, but quit complaining or I won't send this one. I've enclosed a few promotional stickers from WANB, for your files.

Clifford D. Ewing

A handwritten signature in blue ink that reads "Clifford D. Ewing".

Program Manager, WANB AM-FM
