December 14, 1975

Ernest J. Wesolowski  
Omaha, Nebraska

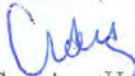

Dear Ernest:

I am happy to verify your report of our test on December 8, 1975. The test was conducted using an RCA BTA-1MX xmtr and a 200 foot NON-D antenna. I'm sorry I can't include a Coverage Map because we just don't have one.

Other stations on during the test are: KRKO, WBNX, WTOB, WLCY, KUDL and a few more.

Your report is characteristic of the majority I've received in that it relied on the CW IDs for a positive identification.

73's

  
Craig Healy, C.E.
