October 29th, 1975

Ernest J. Wesolowski
1416 Pasadena Avenue
Omaha, Nebraska 68107

Dear Mr. Wesolowski,

We were pleased to hear from you and that you had monitored our signal at Omaha. We have, on other occasions, had letters from very distant places and it always seems to impress our air-work people that their 'audience' covers such a great area. Your letter and its accuracy concerning our sign-on for the morning of Saturday, October 25th, 1975, pin-pointed our sign-on announcement at 17 seconds length. You are right on the button.

However, your transcription of the announcement did contain one error. You understood the announcer to give our address as Old Galvin Road where the exact words are Old Buncombe Road. In every other aspect you were receiving and recording with complete accuracy.

Thank you for your letter and please let us know if you have the good fortune to receive WBBR again.

Sincerely,

Bob Slater
Station Manager
