Dear Sir,

I suppose you think this is some outfit because your letters were never answered. Well, it is a small station and everybody here does two or three jobs and I suppose everyone was just too busy. I'm board operator, announcer, and disc jockey twenty five hours a week in addition to being chief operator. I've just been here since July this year, and I had a lot of back letters like yours to answer.

I must say that all DX'rs are not as considerate as you. I'm using the dime to mail some other confirmations.

According to our station logs, such a broadcast as described in your report of May 23, 1959, was made by WFIS.

Sincerely,

J. Dalton Reece
