Ernest J. Wesolowski
1416 Pasadena Avenue
Omaha, Nebraska 68107

Mr. Wesolowski;

This letter is to confirm that the items and announcements you heard were broadcast on WGNS at the times and date shown on your letter. (#75-109)

WGNS broadcasts 24 hours a day, operating at a power of 1000 watts daytime/250 watts at night. We do not have a regular silent period for maintenance.

Two years ago last summer we recieved a letter such as yours, also from Nebraska. Last month, we got one from Lexington, Kentucky. The report from Nebraska was at 2:30 AM, the one from lexington was at 6:45 AM, while operating at high power, just after daybreak.

Paul Jeffrey Rebmann
