

WMTS

P.O. BOX 860 MURFREESBORO, TN. 37130

Radio 810
5,000
CLEAR CHANNEL
WATTS

November 24, 1980

Dear Sir:

WMTS appreciates you writing the station and letting us know just how far our signal is capable of going. We really had no idea that our signal would travel that far.

Due to being a 5000-clear channel day time station, WMTS is required to sign off at a certain time. Here is the sign off announcement: "Federal regulations require WMTS to end its broadcasting day. WMTS is owned and operated by The Hale Broadcasting Company, Monte Hale, President. We operate on and assigned frequency of 810 kHz, with an output power of 5000 watts. From WMTS, have a pleasant day, and tune in tomorrow to WMTS, Murfreesboro, Tennessee."

Enclosed is a copy of our coverage map and a rate card.

Thanks for taking the time to listen to our station and to write to us on your finding.
