Dear Mr. Wesolowski

I would like to apologize for not being prompt in response to your letter of August 14 requesting a verification of your reception report #67-81-F/up. For the past several months WWGM has been in the process of changing management and ownership, and the engineering staff has been considerably changed.

The Chief Engineer at the time of your report is no longer with us, however, your earlier requests for him to verify the report apparently were not answered.

All that I can do as far as verification is concerned is read and interpret his notes. There was some maintenance noted on the April 14 Maintenance Log but I suspect it was actually done on April 15 since the engineer who noted the maintenance was not on duty April 14 but was on duty April 15; and there was no Maintenance Log made out for April 15.

I'm sorry that I can't give you more definite information but that is all I have. If I were in your position, I think I would consider this a verification.

Very truly yours

Hugh E. Hickerson
Maintenance Engineer
