Omaha 7, Nebraska 68107

Subject:
Reception Report #67-66

Dear Sir:

I am pleased to verify your reception of Radio Station KBYP on Saturday morning April 1, 1967 between the hours of 12:18:45 and 12:31:10am Central Standard Time while we were performing a frequency test. Your account of the Transmission was very accurate.

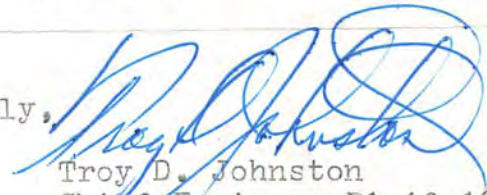

Radio Station KBYP is a Daytime-250 watt station.

As you know, we are required by the FCC to run a frequency test each month. I normally run ours on the first Saturday morning of each month between 12:15 and 12:30am CST.

It is always my privilege to verify reception reports when there is no doubt about the authenticity of them. I would like to take this opportunity to thank you for your account of the reception and thanks for your interest in radio.

I am enclosing a few items that I think you might enjoy, including one of our rate cards & Coverage Map which you requested. I took the liberty of verifying the coverage map too. I hope that this meets with your approval. If I can be of any further service to you, please feel free to call on me.

Sincerely,

Troy D. Johnston
Chief Engineer P1-10-12567
