Mr. Wesolowski,

I am glad to be of help to you in verification of your reception of KDET. I can verify your reception of KDET on Sunday, March 17, 1974, from 6:11 a.m. to 6:21 a.m., as I was on the air at that time.

You are correct about our pre-sunrise power of 500 watts. This month we go to full power, 1,000 watts, at 7:30 a.m. Included is a KDET coverage map by your request.

Sincerely,

A handwritten signature in cursive script that reads "Jim Stevens".

JIM STEVENS
