March 6, 1973

Mr. Ernest Wesolowski
1416 Pasadena Ave.
Omaha Nebraska, 68107

Dear Mr. Wesolowski,

This letter is to confirm your reception of radio station KDOK on Saturday March 3, 1973. At the time you were monitoring us, we were broadcasting a 1000 hz. test tone for frequency deviation testing. The frequency check took place from 1:15A.M. to 1:30A.M.C.S.T. You mentioned a DX friend of yours has also monitored KDOK during previous frequency checks, on Saturday mornings. Effective April 1st, our frequency checks are being rescheduled to the first Tuesday morning of each month between 1:30A.M. and 1:45A.M. C.S.T. Thank you for your letter, and good DXing!

Sincerely yours,

Robie Morgan, Jr.

Robie Morgan Jr.
Chief Engineer, KDOK, KNUE
