POLK COUNTY BROADCASTING CO.

LIVINGSTON, TEXAS

East Texas' Most Powerful Radio Station

March 7, 1967

Ernest J. Wesolowski  
1416 Pasadena Avenue  
Omaha, Nebraska 68107

Dear Mr. Wesolowski:

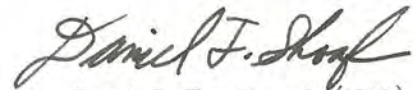

This letter will verify your reception of K E T X on January 16, 1967 from 2:22 to 2:29:30 AM Central Standard Time during our equipment measurement test. We received 61 reports from 20 states and 2 provinces, the farthest being from Marysville, Washington.

We use a Collins 21A, 5000 watt transmitter fed into our 200 foot non-directional tower. We were on the air briefly at 1:51 AM CST but lost a resistor in our 813 driver circuit and didn't get back on until 2:06 AM. Sorry, we do not have any available coverage maps at this time.

We were pleased to conduct this test for the National Radio Club, and we were pleased with the large amount of response from your fellow NRC members and to know we were heard from such a wide area in the United States and Canada. Thanks very much for your report of K E T X reception.

Sincerely,

K E T X RADIO

Daniel T. Shoaf (NRC)
