

KLUF

LUFKIN, TEXAS

Dear Mr. Wesolowski;

I am happy to confirm your reception report of Radio station KLUF Lufkin, Texas on January 1, 1979 between 5:30 P.M. and 5:33 P.M. Upon checking the program logs, it was found that the information you heard is correct, however antenna change was not till 5:45 P.M. Actually, with our directional pattern we put more signal your way after antenna change. In fact, I get many reception reports from your part of the country at night. KLUF operates with 1000 Watts non-directional Day and 1000 Watts directional at night. WE are currently applying for 5000 Watts day. I was very glad to hear from you and have great respect for your hobby. Enclosed is coverage maps and rate cards of our stations.

Sincerely,

Robert Tindle
