October 17, 1972

Ernest J. Wesolowski
1416 Pasadena Avenue
Omaha, Nebraska 68107

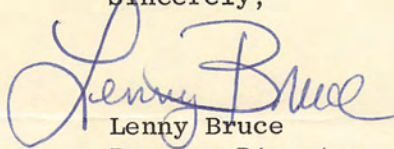

Dear Ernest:

This is to confirm your reception of KLVI at 560
Kilohertz on October 9, 1972.

We operate at a power of 5,000 watts non-directional
during the day and on a four-antenna directional
array at night.

Enclosed you'll find coverage maps for both patterns.

Sincerely,

Lenny Bruce
Program Director
