WACO TEXS

Greetings Ernest,

Haven't I heard from you before when I was at KTEM in Temple? Maybe or Maybe not, but I am pleased to confirm your reception of KRZI. I am now the Chief of a few days having left KTEM to come here. Oh yes, confirming your reception on 9/18/74.

HAPPY DX'ing and 73's to ya.

sincerely

SamTeaff- chief eng.

P.S. Enclosed is the most important information one could ever receive. As a radio engineer I don't accept anything I can't prove with factual evidence or sound supporting logic. I tryed for over a year to disprove what I am enclosing, the ultimate end was that it could only be proven true beyond a shadow of a doubt. THE fact that radio waves existed and could carry messages over distant areas was not uncovered without much searching and reasearch. But look at the reward for that persiverence . In this matter something much more important is involved. Our lives! Investigate thourghly as a judge hearing a case with lives involved. Life is in the balance.

sam
