

# RADIO STATION KUKO

500 WATTS      1370 Kcs.  
POST, TEXAS

March 28, 1963

Dear Sir:

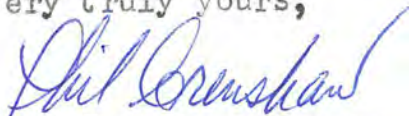

Pardon such a delay in our response. I have just sold the station and there was the usual red tape involved.

Studio is located down town at 115 West Main, the transmitter one mile south of town. Tower is 204 feet tall; we broadcast from a BC-500K Gates transmitter.

This is the best copy of a coverage map we have. Hope it gives you some idea of our coverage.

Thank you for writing.

Very truly yours,

Phil Crenshaw, Owner  
& Chief Engineer
