Omaha 7, Nebraska

Dear Ernest,

This is your letter of verification for your DX report on our frequency check. Your log corresponds exactly with ours.

Our station went on the air May 8 of this year and we are a daytime only station operating with 1,000 watts non-directional.

We have an RCA transmitter which is remote controlled from our studios approximately  $1\frac{1}{2}$  miles away. Our studio equipment is primarily Gates.

We hold regular frequency checks on the second Saturday of each month usually around 12:05 AM, maybe you can tune us in again.

If you are ever in the area, please drop in to see us.

Sincerely yours,

*Stan Michno*
