Omaha 7, Nebraska

Dear Ernest:

Thanks, for your letter relative to KZOL and the program. Neil Manceck was the boy on the board at the time you heard KZOL. If you don't think that mexican XERF is not on top of me you should tune in about 5:30 some P. M.

I have had many letters from the various Clubs over the Country and I believe the one the fartherest away was Australia. Yes the info you send is correct. Our pattern is around 100 miles non-directional however we get out 250 miles at times.

The Tower and Transmitter is located west of Muleshoe 1.8 miles on Clevis Rd. We are using a Shunt fed Tower 150' the name brand is "Utility". My Frequency check fall every quarter arpund the middle of the month. I think my next one will be March 20th.

I all ways do the work as you know after midnight, I would say 12:50 CST. I use the Monitoring Service in Kansas City. Thanks for your letter Partner" 'You-aul Come.

Sincerely

Theo "Pop" Rozzell
