This letter, Ernest...

...will confirm the accuracy of your monitoring on the date specified. I regret that my Chief Engineer failed to answer both of the earlier requests since the second was also referred to him. I'm handling these personally now and any of your group who merits it will be sure to get a prompt reply.

...If the dime doesn't come back to you, you may rest assured my secretary enjoyed her cup of coffee.

Cordially,

AMBERT DAIL
