Dear sir:

Received your report of reception of our transmission of 4 April. We run a freq. measurement with Lee's Summit, Mo. monthly, and was pleased to get your report.

Our studios are located at 98 S. Main, and transmitter is on the S.E. edge of town. We run 250 W. unlimited time, and have had reports as far away as San Diego, Cal. on favorable conditions.

Was interested in noting you are using a rhombic ant. Our ant. is located in a low marshy area, which gives us a good ground, and is series-fed  $\frac{1}{4}$  wave.

Respects,

A handwritten signature in blue ink, appearing to read 'Ralph P. Burger', is written over the typed name.
