Dear Sir:

Thank you for your kind letter. Please forgive the fact that I am answering your letter as opposed to our chief engineer. I am acting engineer as well as program director at the current time.

I am happy to verify most of your report. At Midnight we do play an "Ownership" statement but not a Sign-off announcement. We broadcast 24 hours a day with 10,000 watts daytime, 5,000 watts critical hours, and 1,000 watts at night. Perhaps reception faded and prevented you from continuing to hear KCHY after midnight. The information contained in your letter as to the content of our ownership statement was correct. We are located on Terry Road south of Cheyenne, Wyoming. KCHY (formerly KCGO) used to broadcast at 1590 K.H. with studios in town but since September of 1972 we have been located at the present sight with frequency at 1530. We would be happy to receive another visit from you whenever you might be in the area.

We would be happy to know if you are still able to receive KCHY and would like to know how regular reception is. Best of luck on your listening and thank you for your reception report. Once again thanks for listening to the Big 1530.

Sincerely Yours:

Ted Loveland
Program Director
