MILFORD C. JENSEN, DIRECTOR AND GENERAL MANAGER

July 16, 1974

Mr. Ernest J. Wesolowski,
1416 Pasadena Avenue
Omaha, Nebraska 68107

Dear Mr. Wesolowski,

We cannot find any correspondence from you concerning your report of reception of WCAL-FM on Tuesday, August 12, 1969, but your letter of June 24, 1974 contains information which our log appears to verify.

This letter should be construed as confirming your report of reception of WCAL-FM on the morning of Tuesday, August 12, 1969 between the hour of 0645 and 0650 CDT, at which time we were making special announcements concerning the possibility of long distance reception on the higher frequencies caused by meteor scatter propagation

On the morning of August 12, 1969 we had reports from many points on the East coast and throughout the Mid-West, but virtually none from the West.

We thank you for your letter, and are sorry that we seem to have missed your earlier correspondence.

Yours sincerely,

MCJ/s
