April 11, 1972

Mr. Ernest J. Wesolowski  
1416 Pasadena Avenue  
Omaha, NB 68107

Dear Mr. Wesolowski:

I am pleased to report that your Reception Report #FM-72-3  
for Sunday, March 26, 1972 was correct.

KXCV has been on the air since January 15, 1971. We are a  
100,000 watt stereo public radio station broadcasting on  
90.5 megahertz. KXCV uses a Gates 20 KW transmitter. We have  
a 500-foot tower with a 12-bay antenna, utilizing circular  
polarization.

We hope this has answered your questions. Thank you for your  
interest in our station and continued success in your fas-  
cinating hobby.

Sincerely,

A handwritten signature in blue ink that reads "Rollie Stadlman".

Rollie Stadlman  
General Manager
