Dear Ernie:

This is to verify your reception report of KFAB-FM on Sunday, October 31, 1971 between 10:27 and 10:52 AM, Central Standard Time.

KFAB-FM operates on 99.9 MHz with a power of 115,000 watts. Our FM transmitter is located south of Omaha, between the towns of Capehart and Papillion, Nebraska. Our FM antenna is 500' tall and is the eastern tower of the group of 4. Our modern studios are located at 5010 Underwood Avenue in Omaha.

Thank you for your interest in KFAB-FM.

Sincerely,

John A. Bruna
Chief Engineer
