Dear Mr. Wesolowski:

Your request for confirmation of reception of KTVO on June 26, 1964 came about three weeks too late!! We disposed of those logs about that time when we transferred our records to a new location. I'm sure that it is correct as an old TV Guide, which we do keep on file, shows that program scheduled.

For an "Official" confirmation, I suggest you try for our "Late-Late" show on Friday nights. We start a Horror show at Midnight Friday nights and perhaps KMTV signs off at Midnight. Another chance is on alternate Thursdays we do "Color Phase & Gain" measurements Throughout our entire system and you perhaps could catch that. Next Scheduled test is for May 11, 1972. Our other test transmissions are usually not broadcast, rather into a Dummy load.

Yours truly,

Jerry Dreger
