Dear Mr. Wesolowski:

This will verify your reception of KUON-TV, Channel 12, Mead, Nebraska on November 2, 1971 at 7:30 to 7:33 p.m., CST. When one realizes that KUON-TV is licensed to serve the Lincoln/Omaha area with 5,000 - 15,000 microvolts, it can scarcely be considered "DX".

Enclosed you will find our network map, indicating coverage areas of each of our nine stations.

Thank you for your interest in Nebraska ETV.

Sincerely,

Henry C. Cronin  
Director of Engineering
