Dear Sir:

In reply to your letter referring to our DX broadcast of March 11th we may say that from your description of our program and the time stated it would appear that you were listening to C.H.M.A. As you did not state the name of any number we played we cannot verify.

We have received numerous reports from practically all parts of the United States, including some very nice reports from the Atlantic Coast.

Thanking you for your co-operation in this DX program and trusting that we may hear from you at some future date, we remain,

Yours very truly,

Station Manger.
