ENGINEERING DIVISION

David F. Thomas, Esq.,
Official Longwave Listening Post,
(1. DX. S).
Proctorville,
OHIO, U. S. A.

Dear Mr. Thomas,

Thank you very much indeed for your letter of the 11th July last and for the interesting report of reception. I am afraid that none of our medium wave stations operate on a frequency of 668 KC/S, and therefore you must have been listening to the relay of the B. B. C. News from Jerusalem. I am attaching the latest list of our Broadcast Stations in this country so that you may have easy verification if you happen to hear any of them.

Yours very truly,

for CHIEF ENGINEER.
