"THE VOICE OF THE GOLDEN NORTH" — ALASKA'S OLDEST STATION
ESTABLISHED MAY, 1924

ANCHORAGE, ALASKA

January 8, 1942

David F. Thomas
Proctorville, Ohio

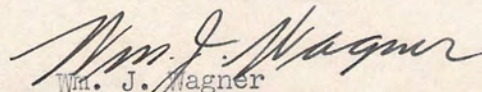

Dear Sir:

Your letter of January 2 reporting on the possible reception of KFQD during our DX schedule has been received. We believe without a doubt that it must have been our station that you heard inasmuch as from the even hour until fifteen after the hour we gave a news-cast and one of the items which was read about the time you mentioned was from London.

We do not believe it was KECA because they sign off at the time our DX program began.

We highly appreciate your interest and your report. In looking through our file, I am unable to locate the letter you referred to as having been written under date of February 16 reporting reception of this station. I trust that the above information is beneficial to you.

Very truly yours,

Wm. J. Wagner
General Manager
