Mr. David F. Thomas
Proctorville, Ohio

Dear Mr. Thomas:

According to our operations log we were on the air from 2:00AM until 2:15 AM January 4th. At this time we were conducting a frequency check, call letters of station, 1000 cycle modulation for one minute then no modulation for 3 minutes. This lasted for the duration of the 15 minute period. The above time is Pacific Standard.

Very respectfully,

W.R. Nichols
Chief Engr.
