December 3, 1953

Dear David,

Thank you very much for your very nice letter reporting reception of W P I D on the morning of November 30, 1953.

I am very glad to verify your report.

I am just wondering; You are not just a regular DX'er are you? That probably sounds stupid to you but I just wanted to know.

I was a little afraid to let Doug see your letter for if folks keep saying nice things about him he'll want us to pay him the first thing that you know. Just kidding of course.

The program to which you were listening is a regular program of W P I D and runs from our remote studios in Centre. It goes from 4:00- 8:00 A. M.

Our regular, or main studios and transmitter are here in piedmont. We use a Gates BC-1E transmitter that I have rewired. It uses 833-As for the final and modulators. All of our equipment with the exception of the freq. monitor is Gates. The freq. monitor is very well named---DOOLITTLE.

Thanks very much for your nice letter and we hope to have you with us often on W P I D.

Yours Truly,

Hamilton Masters
