Dear Mr. Thomas,

This is to verify your report of reception of Station KCON on the morning of March 20, 1951 during the combined NRC broadcast and frequency check.

We are a new station and just now have had time to get some verification cards printed. As soon as they are received from the printers, we will ship one up your way.

Our chief engineer's name is Herman Stermer, not Burger as you received it. Also, am wondering what the story on WUMS is??? Your report is appreciated very much. About 90% of our reports came from National Radio Club members. We were very happy with the success of this broadcast.

Anytime you hear our station again, we will be glad to have another report from you.

Good luck in your D-X.

73,

RADIO STATION KCON
