Nov. 13, 1967

Mr David F. Thomas
Radio W, U, M, S,
Po Box 11531
Tampa, Florida 33610

Dear Mr. Thomas,

Thanks a million for your letter on our Oct 2 Test program and sorry to be so long in answering but we were waiting on some brochures to send but we still haven't received them.

KDDA is a daytime station, Non directional, 500 watts output and operating from a 100' tower. We use a BC-1F Gage transmitter cut back to 500 watts.

We received fifty reports on the test from all around the country - Florida, California, Washington, New Hampshire and three from Canada.

I hope you are over the back trouble by now and am sure sorry it happened.

Your report is verified as correct by us.

Best Regards,

Alan W. Eastham
