David F. Thomas
Radio WUMS
P.O. Box 11531
Tampa, Florida 33610

Dear David:

I am happy to confirm your report of reception of KWRF on December 5th, from 12:45 to 12:55 A.M. CST, when we were on the air for our regular frequency check. We were also on the air after that time for further tests, and I am glad to confirm this also to those who reported hearing our additional testing.

Please excuse the copy made of this letter for you, but the number of reception reports this month makes this necessary, lest I not get them all replied to. We were very pleased to receive each report, some of which came from as far, or farther, away than any previously reported to us. Reports were received from: New Berlin, Wisconsin; Madison, Wisconsin; Reading, Penna; Erie, Penna; Lake City, Minn.; Buffalo, New York; St. Louis, Mo.; Tampa, Florida; and Scarborough, Ontario, Canada.

I appreciate each one of those reports, and am happy to confirm each one received. We are on the air for our monthly frequency check each first Tuesday of the month, from 12:45 to 12:55 A.M. CST if you care to tune in again, or want to pass the word to someone else. Thanks to all for your reports.

Sincerely,

Allen Wiese
Chief Engineer

P.S. Glad to hear from Tampa...was really surprised that we came in so well, though we got out real well this last time. I really appreciate your report and want to wish you a very Merry Christmas.
