Dear Sir,

We have received from Station 2ZF New Zealand a report from you and have to advise that it would coincide with our log at the time and date stated. Of course, your report is a little vague and we cannot say for certain. At the times stated, however, we were playing a recorded programme consisting of orchestral numbers with a record of a high pitched tenor which you might have mistaken for a woman singing. In any case we attach our station card for your collection.

Yours faithfully,

Eng. & Mgr.
