

Armed Forces Radio Station  
APO. 708. % Postmaster  
San Francisco, California

29 November 45

Dear Mr. Thomas

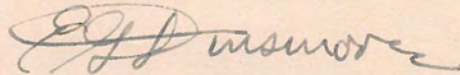

This is to verify your report of hearing WVUR, the Armed Forces Radio Station, at this base. Your report has been checked with our log and found correct.

WVUR uses a Collins 1000 watt transmitter with a quarter-wave antenna end-fed, non-directional.

The great distance and amount of interference makes it difficult to give exact identification, However it is very probable that our signal was available to you, as we have had reports from listeners in nearby states and some further east.

Thanks for your interest and we will be pleased to hear from you at any time in the future and hope for a more favorable report.

Sincerely

T/3 E.G.Dinsmore.
