David Thomas
Proctorville, Ohio

Dear Mr. Thomas:

Thank you very much for the DX report of January 30, 1950,
No. _____.

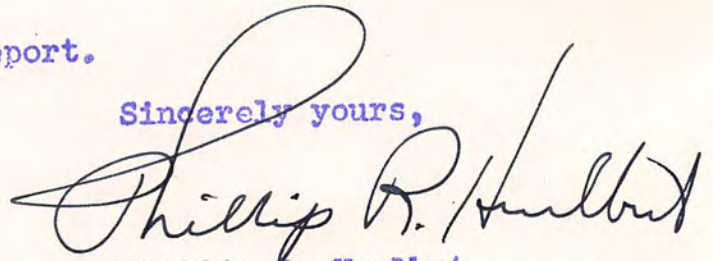

However, in as much as we are programing ad lib from
12:00 to 8:00 a.m. six days per week, it would be impossible
to verify the times as set forth in your report.

Equipment used at KTKT is Gates Radio Company; transmitter
type BC250GY; Console type SA50: 4 Presto 15G Tables; Grey
Research Arms with GE Cartridges and Electro-voice 635
announcing mike. The tower is a 200 foot ground uniform cross
section with a shunt feed wire at N 30° E. The guys being
spaced 120° apart with one set of 10 at N 35° E. The RG8U
feed line is duplicated in conduit and is 200 feet long. A
ground system of 120 radials 170 feet long is used.
Programing is done extensively from Lang-Worth Library and
recordings as well as 33 and 45 LP-MG recordings.

KTKT's studios and transmitter are located 1½ miles N 345° E
of the heart of Tucson and first took the air at 7 pm MST on
December 13, 1949.

Thank you again for your report.

Sincerely yours,

Phillip R. Hurlbut
General Manager
Technical Director
