

# CJVI

VICTORIA, B.C.

Feb. 26, 1948.

Mr. David F. Thomas,  
Proctorville, Ohio.

Dear Mr. Thomas:

Many thanks for your interesting letter, together with the detailed report on reception of our DX program. From your letter we are able to confirm reception of CJVI between 2:40 and 4:00 AM EST, Feb. 22nd.

The extremes of fading you mention were no doubt due to the unsettled weather prevailing generally about that time. It was quite windy here at the time of the broadcast with heavy rain. The temperature was 40.

I must say I am not very well acquainted with the activities of your listening post and would like to learn more about it. From the receiving equipment you have I presume you can get quite an assortment of signals.

Thanks again for your report, all the best from CJVI.

Very truly yours,

  
Neil M. Nisbet.
