Krowing Always For Petaluma

PETALUMA, CALIFORNIA

March 18, 1951

Mr. David F. Thomas,
P. O. Box 1613,
Proctorville, Ohio

Dear Sir:

Thank you very much for you very fine letter and card reporting the reception of this station on the morning of February 19, 1951, at 0910 GMT. A check of our station log proves your reception of this station at that time to be correct.

Your report is especially appreciated in that the morning you heard us testing we had just finished putting in several new tubes in the rf section of the transmitter as well as new modulator tubes. It is gratifying to know that after this was done the transmitter was performing well enough to be received by you, even though there was QRM from WESB.

Thank you again for your very good report and the best of Dx to you.

73,

Edward N. Alcalá,

Acting Chief Engineer
