David F Thomas,

I cannot reliably confirm your reception report of last winter and we do not carry an all night program at present. Signoff is usually at 1:05a PST.

It may be possible in the near future to hear us during WWSW's silent period on Sunday a.m., as I understand they are silent from 3-4am P.S.T. If this is the case we will probably be on the air intermittently on 970 kc as we readjust equipment from Conehrad test runs. No schedule of date or time is possible as this will be done as convenience permits.

Regards

J. Quenler
